

there are possibly $2\frac{1}{2}$ or impossibly 3
individuals every several fat
thousand years. Expecting more would be
neither fantastic nor pathological but

dumb. The number of times a wheel turns
doesn't determine its roundness:if swallows tryst
in your barn be glad;nobody ever earns
anything, everything little looks big in a mist

and if(by Him Whose blood was for us spilled)
than all mankind something more small occurs
or something more distorting than socalled
civilization i'll kiss a stalinist arse
